HIGHLIGHTS

Union Membership as a Proportion of Non-Agricultural Paid Workers (Table 1)

1. Total membership in labour organizations in Alberta in 1986 was 286,986 representing 29.4 percent of the non-agricultural paid labour force compared to membership of 288,339 and 30.9 percent in 1985.

Membership by Industry (Table 2)

2. The highest concentration of union membership is in construction and public administration. Seventy nine (79) percent of the work force are members of unions in public administration. In construction the number of union members is equal to fifty-one (51) percent of the work force. However, this figure is inflated due to high levels of unemployment and the common practice of workers maintaining their union membership during periods of unemployment or while working non-union jobs. The largest group of union members (37 percent of all Alberta union members) is found in the service industry which includes education and health care services.

3. Agriculture and finance are the only industries that have no union representation.

Union Affiliation (Table 3)

4. About 136,000 union members (47.4% of all Alberta union members) belong to unions affiliated with the Canadian Labour Congress (CLC). Of these, 38,680 are also affiliated with the American Federation of Labour/Congress of Industrial Organizations (AFL/CIO).

5. About 39,600 union members (13.8% of all Alberta union members) belong to unions affiliated with the Canadian Federation of Labour (CFL). Of these, 34,531 are also affiliated with the American Federation of Laboour/Congress of Industrial Organizations (AFL/CIO).

6. There are 102,820 members (35.8%) belonging to unions unaffiliated with any national or international body compared to 102,330 (35.5%) in 1985. Of these, 7,033 members belong to unaffiliated **international** unions.

Legislation (Table 4)

7. Almost 193,000 (67.1%) of Alberta union members come under the jurisdiction of the **Labour Relations Act** while 50,089 (17.5%) come under the **Public Service Employee Relations Act.** Federal legislation provides the legal framework for 12.3 percent of Alberta union members.

Public/Private Sector (Table 5)

8. Twenty-nine (29) percent of union membership in Alberta is in the **private** sector compared to thirty (30) percent in 1985. By contrast, union membership in the **public** sector rose slightly from 70 percent in 1985 to 71 percent in 1986.

9. In the private sector 14 percent of union membership is female, while in the public sector 54 percent of union membership is female.

10. Only 10.0 percent of all female union members are employed in the **private sector** while 90.0 percent are employed in the **public** sector.

Membership by Sex (Table 6)

11. Females constitute 42 percent of all union membership in Alberta while union membership is held by 28 percent of Alberta's non-agriculature paid female workers. By comparison, 31 percent of non-agricultural paid male workers are union members.

Membership over 3000 (Table 7)

12. In 1986 there were 17 unions in Alberta with more than 3000 members. In total they represented 206,964 union members or 72.1% of Alberta membership.

13. The largest union in Alberta is the Alberta Union of Provincial Employees (AUPE) with 48,082 members.

14. Of the 17 largest unions in Alberta eight reported an increase in membership since 1985 while nine reported a decline.

15. The largest increase in membership (36.3%) was reported by the International Brotherhood of Chauffeurs, Warehousemen and helpers of America. The Public Service Alliance of Canada increased by (12.3%). All other reported membership increases among the larger unions were less than 8 percent.

16. The largest membership losses among large unions were reported by the Labourers' International Union of North America (22.3%) and the International Union of Operating Engineers (11.3%).

Female Membership over 1000 (Table 8)

17. In 1986, 88.2 percent of female union membership belonged to the sixteen unions which each had more than 1000 female members.

18. The unions with the largest number of female members are AUPE and the Alberta Teachers Association (ATA) with 28,476 and 24,017 female members respectively.

19. The highest concentration of female membership is found in the health care unions. Unions with female membership over 90 percent are: United Nurses of Alberta (UNA) (98.2%); Alberta Association of Registered Nursing Assistants (AARNA) (93.5%); Health Sciences Association of Alberta (HSAA) (90.0%); the University of Alberta Hospital Staff Nurses Association (98.8%); and the Calgary School Support Staff Association (94.2%).

FOREWORD

Membership in Labour Organizations in Alberta is an annual publication providing membership and other descriptive information on unions in Alberta. For purposes of this report any organization which engages in collective bargaining with the object of concluding a collective agreement is included. This includes international, national and provincial unions as well as strictly local employee associations and academic staff associations.

Information in this publication combines the results of two surveys: the Statistics Canada Corporations and Labour Unions Returns Act (CALURA) survey and a supplementary survey conducted by Alberta Labour. The surveys requested membership figures as of December 31, 1985 or January 1, 1986 so that the data in this report represents membership at the beginning of 1986.

In comparing union membership figures from year to year (Table 1) it is important to note that in two years, 1980 and 1983, a substantial jump in membership is recorded. In 1980, for the first time, Alberta Labour conducted a supplementary survey of employee associations which significantly contributed to the noted increase; in 1983 a concerted effort was made to capture all of the organizations previously overlooked. As a result, another jump in membership was recorded but it is solely due to improved survey coverage.

Our sincere appreciation is extended to all of the organizations and individuals who co-operated by supplying requested information either through the completion of survey forms or by responding to telephone inquiries.

While every effort has been made to obtain comprehensive information, it is possible that some organizations have been overlooked and are excluded or misrepresented. Comments, corrections and other observations about any aspect of this publication are welcomed and may be forwarded to the undersigned or Nick Frans, Manager, Statistics and Information Services at (403) 427-8531.

DATA SOURCES AND METHODOLODY

Source of Data

The membership data used as a basis for this report is derived from two surveys. Statistics Canada under authority of the Corporations and Labour Unions Returns Act (CALURA) conducts an annual survey of all labour organizations with membership of more than 100. A survey by Alberta Labour covers all other labour organizations in Alberta. The table below provides specific details for the current year in terms of the memberships and organizations surveyed by each.

Comparisons with Previous Years

Since 1982, tables and graphs have been included in this report which explore certain characteristics of Alberta union membership such as industry concentration, affiliation and covering legislation. The unit on which this breakdown was based in 1982 is the union local. In 1983 the unit of measurement was changed to the bargaining unit which provides more accurate disaggregations. Therefore, comparisons of disaggregate union membership characteristics should be confined to data contained in the publications after 1982.

Notes on Individual Tables

Table 1 - Growth of Union Membership and Non-Agricultural Paid Workers
In 1980 Alberta Labour first carried out a survey supplementing Statistics Canada's CALURA survey. This contributed significantly to the increase in membership registered from 1979 to 1980. Similarly the indicated increase from 1982 to 1983 is attributable totally to improve survey coverage. Starting in 1983, membership figures should be directly comparable to those of subsequent years.

"Non-agricultural paid workers" is a statistic estimated by Statistics Canada based on the Labour Force Survey. The figures used from 1977 to 1983 were all revised in January 1984 based on 1981 Census data. Thus, the figures in the table for these years may be different from those published by Statistics Canada prior to 1984.

Table 2 - Union Membership as a Proportion of Paid Workers by Industry
Two factors can be identified which have potential for some misinterpretation of data. 1. Union membership is not necessarily to be equated with "employed union member". Especially in the construction industry in recent years, union membership figures substantially exceeded those actually employed; thus, "membership as a % of total paid workers", particularly in this industry, must be used with caution. 2. A similar caution applies to the "Service" industry. Union membership, particularly in education, may include members who are retired or for other reasons are not included in the paid labour force. This industry includes, and union membership is primarily composed of, those employed in the education and health care fields. Apart from these two sectors, where membership as a proportion of total employment rivals that of public administration, union membership in the service industry is very low.

Table 3 - Union Membership by Affiliation
Affiliation is not ascertained through survey information but is generally obtained from the annual Labour Canada publication **Canada Labour Codes.**

Table 5 - Union Membership by Public/Private Sector
"Public sector" is here defined to include the following: urban transit, broadcasting, telephones and telegraph, utilities, post office, education services, hospitals and health care, welfare organizations, and all levels of government.

Table 9 - Labour Organizations in Alberta
This table lists all of the unions and associations surveyed for this report alphabetically **by key word.** Affiliation is indicated in brackets after each name. The name, address and telephone number of a contact person for each organization is included, and, to facilitate comparisons, the previous year's membership data are also given.

UNION ORGANIZATIONAL CHANGES, 1985 TO 1986

Additions to the Survey

The following organizations, with membership in brackets, were added to the survey in 1986:

Alberta Cryogenics Employee Association (7)
Fabricators Employees Association (30)
School Bus Drivers Association, Starland S.D. #30 (16)
School Custodian Staff, Foothills Custodial Association (64)
Teachers Aides and School Secretaries, Starland S.D. #30 (9)
Waterous Power Products Mechanics Association (37)

Deletions from the Survey

The following organizations were surveyed in 1985 but were no longer functional in 1986 and therefore were not surveyed:

Barrhead Police Association
Council of Office Employees
Coutts Machinery Employee Association
MacLeods Employee Association

Mergers

The **Baymag Employees Association,** previously independent, merged with the International Brotherhood of Boilermakers, Iron Shipbuilders, Blacksmiths, Forgers and Helpers effective July 30, 1985.

The **Joint Industrial Council,** previously independent, merged with the International Machinists & Aerospace Workers, Local 1722.

The **Parkland Ambulance Authority,** previously independent, merged with the Health Science Association of Alberta.

Alberta Cancer Board Staff Nurses merged with the University of Alberta Staff Nurses Association.

The **Canadian Airline Employees' Association** merged with the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America on July 1, 1985.

The **Upholsters' International Union of North America** merged with the United Steelworkers of America on October 25, 1985.

Name Changes

Mobil Oil Harmattan Employees' Association is the new name for Canadian Superior Didsbury Employees' Association.

1985 Data Revision

The 1985 female membership figure for the **International Brotherhood of Electrical Workers** has been revised from 232 to 3,474 to reflect newly acquired information.

3 The increase shown from 1982 to 1983 is entirely due to improved survey coverage. Total membership in 1983 for organizations also surveyed in 1982 was virtually unchanged.

1 The 1985 figure for female members has been revised to reflect newly acquired information.

2 This figure indicates that for the 16 unions with the largest female membership the proportion of female members is 58.4%. Another way of looking at this number is that 88.2% $\frac{106,650}{120,975} \times 100$ of female union members in Alberta belong to these 16 unions.
